General

- Fluent in Perl, PHP, SQL, PL/SQL, C, PRO/C, COBOL, FORTRAN and HTML.
- Systems programming and systems management experience with Linux, Solaris, Microsoft Windows, OpenVMS, and Honeywell GCOS.
- Experience with Java, C++, Several assemblers, PL/I, Pascal, and numerous obscure languages.
- Database programming and maintenance with Oracle, MySQL, and PostgreSQL
- 30 years experience as a systems programmer and network administrator in an increasingly complex computer environment in a University setting.
- Proven ability to read documentation and learn new systems and software unassisted.
- Experience in configuring TCP/IP, ATM, LAT, DECNET, and Appletalk networks on a variety of hardware.
- In-depth knowledge of Sungard Banner General and Student modules.
- Active directory design, configuration and maintenance.
- Web programming in C, Perl and PHP (including SOAP)
- A great breadth of knowledge in the computer field due to exposure to all aspects of computing on a university campus

Accomplishments

- Installation and maintenance of a campus-wide Ethernet network
- Serving as both postmaster and news administrator for the UALR campus.
- Performed analysis and conversion work for UALR's implementation of student records to Sungard/Banner.
- Authored and maintaining ETAPE, a widely-used freeware tape conversion utility for OpenVMS.
- Debugged HTTP server and client implementations.
- Integral in deploying Oracle Client/Server technology on the UALR campus in support of the SCT/Banner implementation.
- Written many utilities for users and MIS staff under Linux, Solaris, OpenVMS and Windows 2000.
- Written a card access and ID system for the entire student and staff population of the UALR campus.
- Designed, implemented and maintained a computer BBS which, during its life, was the largest and most utilized in the state of Arkansas.
- Written an account-management system for UALR which automates creation and deletion of accounts on Linux, Solaris, LDAP, Windows, and other platforms
